REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

In view of applicant's amendment filed on 5/3/2004 prior art of ROSS and POWELL no longer teaches the present invention.

Amended claims require that the amount of clay be less than 90 % by weight of polymer overcomes the prior art of record, since both disclosures the amount of clay is higher than that of the intercalating polymer.

Amended process claims also require mixing of two dispersions wherein one dispersion is that of clay and the other of polymer. The prior art of record only teaches use of clay dispersion whereas polymer is added thereto neat. There is no teaching or suggestion to one having ordinary skill in the art to use polymer dispersion.

In view of the above reasoning pending claims are passed to issue.

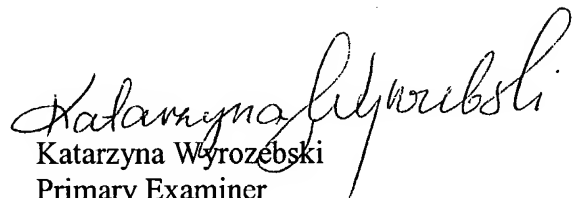

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
